## WORK EXPERIENCE

### AI Consultant

Jun 2025-Date

#### Triple T Consult

- Currently building automated grant identification and application assistance system to secure funding for TB program activities (in development) for Ghana Health Service(GHS)
- Creating data integration solutions to centralize TB monitoring and evaluation across GHS operations
- Engineered 3 AI-powered business solutions: lead generation system, automated proposal generation platform, and AI-assisted CRM, for Digiits agency.
- Reduced proposal creation time by automating document generation, enabling faster client response cycles
- Implemented intelligent lead scoring and nurturing capabilities within custom CRM architecture

### Lead Trainer

Feb 2024-Date

#### Russett Institute

- Designed and delivered professional development curriculum in data analytics and AI for working professionals
- Organized and facilitated 2 public masterclasses on AI applications, reaching 180+ attendees (30 in inaugural session, 150+ in second edition)
- Serving as guest lecturer at 3+ universities including Ghana Communication Technology University (GCTU) and University of Ghana, Legon
- Educating 200+ students and faculty on practical AI applications in research, education, and professional environments

### Monitoring & Evaluation Officer

Electricity Company of Ghana - Monitoring and Evaluation Division Accra, Greater Accra May 2021 – Jan 2025

- Digitization of district monitoring processes within first 3 years, improving efficiency and leading

to increased visibility for monitoring and evaluation efforts resulting in more data-oriented decision making by Management.

- Developed District Business Manual and Indicator Reference Sheets reducing planning cycles from 3 months to 1 month.
- Was involved in continuous strategic stakeholder engagement leading to identification of resource constraints and operational inefficiencies, the correction of which contributed to improved revenue performance of 100% within a two-year period.
- Trained Regional and District Staff on M&E processes boosting data literacy and improving data integrity and reporting time by over 50%.
- Mapped key operational activities to targeted outputs and outcomes using tools like the 'Reasons for Performance' template, resulting in a 10% improvement in average regional and district performance.

### **Consulting Assistant**

*Triple T Consult*

*Accra, Greater Accra*

*Aug 2018 – May 2021*

- Assisted in developing the organizational framework that enabled ECG to move from monthly revenue reporting to hourly enhancing operational responsiveness.
- Contributed to developing ECG's 2023 Digital Transformation Strategy which reduced operational systems downtime by more than 50%.
- Contributed to improving ECG's Performance Management System by designing streamlined templates that reduced the target-setting process from several weeks to just a few days, enhancing operational efficiency across all departments.

### **Assistant Business Development Officer (National Service Personnel)**

*Electricity Company of Ghana*

*Accra, Greater Accra*

*Sep 2017 – Jul 2018*

- Facilitated the work of global consulting firm AT Kearney in supporting ECG's concession process, contributing to strategic transition planning and stakeholder coordination. Assisted in auditing asset data during AT Kearney-led due diligence, certifying accuracy of internal documentation used in bidder evaluations and post-concession M&E frameworks.
- Assisted in the development of the Division's Balance Scorecard and annual training plan.

### **Digital Marketer (Seconded from ECG)**

*CITSYS Limited*

*Accra, Greater Accra*

*Jan 2018 – Jun 2018*

- Increased CITSYS online engagement by more than a 100% in the 1st quarter driving brand visibility and customer inquiries.
- Led the social media marketing team, launched a national radio campaign, and created high-performing Google Ads for ESET and other products.
- Managed the company's online store, handling e-commerce transactions and ensuring a secure and seamless customer journey.
- Produced quarterly performance reports for the Marketing and Sales Department to inform data-driven decisions like digital strategy and ad spend across platforms.
